Data Rationalization Suite

Category	Layer	Function	Deliverables	Incl.	Data Rationalization				
Enterprise Data Architect	Data Discovery	L1	Discover	Data Asset Inventory	<input checked="" type="radio"/>	Use Case : Database Usage Analysis	Use Case : Database Decommissioning	Use Case : Database Rationalization	Use Case : Database Merging / Migration
		.a	Structured Data	Structured Data Asset Inventory	<input checked="" type="radio"/>				
		.b	Unstructured Data	Unstructured Data Asset Inventory	<input type="radio"/>				
		.c	Big Data	Hadoop File System Data Asset Inventory	<input type="radio"/>				
	L2	Ingest	Inventory of External Data Assets	<input type="radio"/>					
	Data Profiling	L3	Profile	Semantic Metadata	<input checked="" type="radio"/>				
		L4	Recognize	Business Domains, Taxonomies	<input checked="" type="radio"/>				
		L5	Classify	Global Object Identification	<input checked="" type="radio"/>				
		L6	Map	Business Ontologies	<input checked="" type="radio"/>				
		L7	Compare	Data Comparison	<input checked="" type="radio"/>				
		L8	Lineage	Flow Analysis, Impact Analysis	<input checked="" type="radio"/>				
		L9	Model	Master / Canonical Data Models	<input checked="" type="radio"/>				
L10		Glossary	Business Terms Analysis	<input checked="" type="radio"/>					
L11	Search	Enterprise Metadata Search	<input checked="" type="radio"/>						
L12	Monitor	Change Monitoring	<input checked="" type="radio"/>						
Data Quality Analyst	Data Quality	L13	Rules	Rules Repository	<input type="radio"/>				
		L14	Metrics	Data Quality Metrics	<input type="radio"/>				
		L15	Steward	RACI Matrix, Policies	<input type="radio"/>				
		L16	Standardize	Codes, Reference Data, IDs	<input type="radio"/>				
		L17	De-Duplicate	Duplicate Detection	<input type="radio"/>				
		L18	Cleanse	Data Cleansing	<input type="radio"/>				
		L19	Monitor	Quality Monitoring	<input type="radio"/>				
		L20	Dashboards	Data Quality Dashboards	<input type="radio"/>				
MDM Architect	Data Integration	L21	Move	Extract, Load, Transform	<input type="radio"/>				
		L22	Enrich	Enrichment using 3 rd Party Data	<input type="radio"/>				
		L23	Match	Master Data "Golden Copy" creation	<input type="radio"/>				
		L24	Link	Graphs, Triplestores	<input type="radio"/>				
		L25	Measure	KPIs / Metrics	<input type="radio"/>				
		L26	Visualize	Visualization Output	<input type="radio"/>				
Data Scientist	Data Science	L27	Synthesize	Create Synthetic Data for Testing	<input checked="" type="radio"/>				
		L28	Migrate	Data Migration to Hadoop and/or Cloud	<input checked="" type="radio"/>				
		L29	Analyze	Statistics / Predictive Models with R	<input checked="" type="radio"/>				
		L30	Distribute	Web Applications using REST API	<input checked="" type="radio"/>
